Professional Summary

Detail-oriented Frontend Developer skilled in React.js, TypeScript, Zustand, and modern web technologies. Transitioned from a science background to building production-ready web apps through self-driven upskilling and real-world project delivery. Committed to crafting accessible, business-impactful user interfaces using industry-best practices.

Skills

- **Languages:** HTML5 (Advanced), CSS3 (Advanced, Animations, SVG), JavaScript ES6+ (Advanced), TypeScript (Intermediate), SCSS/SASS (Intermediate)

- **Frameworks/Libraries:** React.js (Advanced), Next.js (Familiar), Zustand (Advanced), Redux (Intermediate), PuterJS (Intermediate), Tailwind CSS (Advanced), GraphQL (Familiar), CSS Modules, GSAP (Basic), Three.js (Basic)

- **Testing:** Jest (Basic), Cypress (Basic), React Testing Library (Basic)

- **Design/UX:** Responsive Design (Advanced), Figma, Accessibility (WCAG/ARIA), Progressive Web Apps, Design Systems, Lighthouse Audits

- **Performance/Security:** Code Splitting, Lazy Loading, SSR/SSG, Webpack, Vite, Parcel, Browser DevTools, Cross-browser, HTTPS, CSP, XSS prevention

- **APIs/Integration:** REST, GraphQL, Axios, Fetch, Appwrite, Twilio

- **DevOps/Deploy:** Git, GitHub, Netlify, Vercel, NPM

- **Soft:** Communication, Teamwork, Problem-Solving, Time Management, Adaptability, Attention to Detail

Projects

Carepulse — Hospital Management Web Application   Dec 2023 – Feb 2024

- Developed a hospital management platform for 100+ daily users, enabling rapid registration, scheduling, and secure, real-time notifications.
- Implemented global state with Zustand and automated workflows using Appwrite and Twilio APIs (30% faster communication cycles).
- Applied SVG and GSAP for animated dashboards, achieving a visually intuitive user experience.
- Boosted Lighthouse performance/accessibility to 99/100 with responsive, mobile-first design.
- Tested critical flows with Jest and Cypress to ensure reliability; reduced user-reported errors by 50%.
- Live: hms-seven-green.vercel.app

Resumind — AI-Powered Resume Analyzer   Feb 2024 – Mar 2024

- Created an AI-based resume optimization tool; used by 200+ job seekers to boost ATS shortlisting rates.
- Leveraged PuterJS for real-time analysis and Zustand for seamless feedback overlays.
- Integrated dynamic forms, code splitting, and accessibility enhancements for rapid response and universal usability.
- Automated E2E testing with Cypress; maintained code base with GitHub Actions for CI/CD.

- Live: resumind-ebon.vercel.app

TravelwithTehseen — Booking Portal   Oct 2023 – Dec 2023

- Engineered a mobile-optimized, interactive travel booking portal in React.js and Tailwind CSS, coordinating state with Zustand.
- Applied SVG for scalable icons and GSAP for smooth itinerary animations; enhanced UI consistency across browsers.
- Optimized page load time by 1s, increasing user bookings by 20%.
- Collaborated directly with client on PWA upgrades and accessibility fixes.
- Live: travelwithtehseen.vercel.app

Experience

Frontend Developer (Freelance), TravelwithTehseen   Oct 2023 – Dec 2023
Remote

- Built a responsive travel booking platform, streamlining booking UX (React.js, Zustand, Tailwind CSS).
- Improved business conversion via workflow automation and SVG/GSAP-powered UI features.
- Coordinated user testing and client review cycles to deliver on-time feature releases.

Education

Sheryians Coding School (Online Cohort)   2023 – Present
Remote — Bootcamp

- Studied React.js, TypeScript, state management (Zustand/Redux), accessibility, modern deployment, and testing.
- Delivered 5+ full-cycle projects; shifted from medical to IT through project-based mastery.

Govt Higher Secondary School Zoohama   Graduated 2023
Zoohama, Chadoora

- Class 12, Medical Stream (Biology, Physics, Chemistry) — 80.1%. Transitioned to tech via intensive self-directed coding education.

Continuous Learning

- Modern React with Redux — Udemy, 2024

- Responsive Web Design — freeCodeCamp, 2023

- JavaScript Algorithms and Data Structures — freeCodeCamp, ongoing

- Self-learning advanced CSS animations, Next.js, GraphQL, Web3.js

Extracurricular

- Volunteered in web workshops, taught CSS/HTML to peers and local youth.

- Contributed to frontend open source and developer community discussions.
